

EDISON the MEDIUM

The gang's all here! Meet our latest addition to the Edison family; the Medium.

REMOTE REACHES UP TO 10 METERS

MEDIUM SIZE, MAXIMUM STYLE

Here's the story

When an Edison the Petit is just not big enough or an Edison the Grand is simply too big, Fatboy now has the perfect size! No more excuses to not own one of these iconic lamps. Due to its beautiful form, material and colour the Medium will fit in almost every interior- and exterior, because this baby is made for indoor- as well as outdoor use! Cherry on the cake;

you can be in maximum control with our newest feature in the shape of an oversized red remote. By using the buttons to dim your Edison the Medium you can set the mood instantly without having to get out of your comfy chair!
