

VELVET RECYCLED COLLECTION PILLOWS

If you're looking for ritzy eye-catchers in the room in royal hues, this Pillow Velvet Collection has it.

Here's the story

Time to embrace the look of velvet and to add some glamour to your interior. With these super soft lounge pillows.

The velvet pillow collection is designed for indoor use. Because velvet is a delicate fabric, it reflects light, giving the pillows a beautiful shimmer that lends a subtle nuance to every color. Depending on the intensity and direction of the light, colors may appear lighter or darker, bringing a unique and vivid quality to these interior accessories.

Add the velvet cushions wherever you want to create a cosy, layered look. The velvet pillows are available in two different shapes and come in seven colors, of which three are made of recycled polyester. Perfect to mix and match.
