

CO9 XS

Get ready to meet the cuddliest rabbit ever: CO9 XS. This mega bunny is waiting to embrace you with open arms, configured either in super-soft teddy or recycled velvet fabric.

Here's the story

Ever dreamed of being completely swallowed in a hug? Well, you are not the only one. It's why Fatboy designed this adorable floppy-eared rabbit, and made him 1.8 meters tall. CO9 (pronounced co-nine, which sounds like the Dutch word for rabbit) XS is nothing short of a statement for your kid's room – or your living room. Why the XS? Well, that's because he's not even the biggest bunny in the family. Not by a long way; that particular sibling is 6.5 meters tall.

Available in teddy and recycled velvet

Thanks to its soft fabrics and colors, CO9 XS will fit perfectly in any interior. You can opt for a CO9 XS Teddy in cheeky pink or latte. Alternatively, go for a CO9 XS in petrol or taupe in recycled velvet. This soft-to-the-feel material reflects light, giving CO9's furry coat a subtle sheen. Despite being super-soft to the feel, both fabrics can easily take the punishment of daily use in their stride and retain their good looks for many years. Which is just as well, because CO9 XS will be your mega buddy for the long term.
