

BAKKES

Is it a table? Is it a planter? No! It's Bakkes!

Here's the story

A fusion of table and planter, Bakkes is an eye-catching table with space for a leafy friend. The table comes in different colors and is embossed with the iconic Fatboy logo near the rim. Thanks to its tripod design, Bakkes is sturdy and stable – the perfect place for resting your drinks. The plant pot neatly slots into the recess in the table, avoiding any messy situations with soil. Bakkes feels just as at home in your garden as on your balcony. You can safely leave it there all year round. This sturdy side table retains its look through all types of weather. Fill it with your favorite plant, or with ice and your favorite drink...

About the designer

Fatboy developed this smart versatile table in collaboration with Dutch designer duo Kranen/Gille. Their goal is to design products that are up to date and stay up to date. Products that are just as exciting in the future as they are in the present. Products that ignore the trend. Kranen/Gille is always on the lookout. Looking for the next classic, the next design icon. "We love that Bakkes can have so many faces. A minimalistic design table at first but, choose one of nature's countless ornaments to make it personal."
