

# HOTSPOT COLLECTION

With Hotspot Lungo and Quadro and Hotspot Blanket, every place in and around your home will become the hottest hangout.

Why go inside when it's getting chilly out? And, why would you ever get off your couch in the first place? With the Hotspot collection, Fatboy rewrites the rules. Make your evening last forever, or just ignore the seasons completely. You can turn your couch, lounge set, hammock, or easy chair into the ultimate hotspot. Gaze endlessly at the stars, chat until you've said it all, or read that amazing book in a single sitting. Fatboy's stylish rechargeable heating cushions and blankets allow you to switch on The Good Life anywhere, for as long and as warmly as you want.

## Hotspot Lungo & Quadro cushions

With their padded covers, Hotspot Lungo and Quadro give a nod to classic chesterfield cushions. Generous and soft, they invite you to lean back and relax. The red Fatboy label on the side reveals their true nature. It allows you to determine the heat setting of these rechargeable heating cushions. Lungo and Quadro combine style, warmth, and convenience. And of course, the covers are washable.

## Hotspot Blanket

What do you want to snuggle up under when it cools off? A blanket. But what do you pull over you when you really want to be warm? A Hotspot Blanket! This wonderfully large, quilted blanket contains a surprise: an ingenious built-in rechargeable heating element. Using the red label, you can turn it on and adjust it to the setting that works for you. Great to snuggle up under alone or together. Or to put on! To do this, simply fold back the soft teddy-like collar, slip the buttons through the buttonholes, and voilà: you're wearing an oversized kimono with a heating element. And, extra handy: the Hotspot Blanket is washable.
