

PFFFFH

A tough oversized pouf for indoors and outdoors.

Here's the story

Pamper your feet or your, whatever, with Pffffh. A fun pouf that feels at home everywhere. Light, sturdy and comfortable. Its fresh appearance makes it a real showpiece for indoors and outdoors. Its sleek round shape gives it a modern look and feel and its oversized proportions make it as tough as it is strong. So feel free to plop down on it together. There's plenty of room.

Delightful for indoors

Given that Pffffh is not a little fellow, his unmistakable presence will liven up your whole room. And you can choose from some pffffantastically classic colors too. A cozy, atmospheric shade for your living room, for example? A soothing hue for your bedroom, a cool color for your balcony, or a businesslike tint for your home office?

Ideal for outdoors

The material from which Pffffh is fabricated is super-strong and water-, dirt-, and UV-resistant, so the color of this pouf will stay as beautiful as the day you bought it. And because that fabric protects it against wind and weather, your Pffffh is the ideal pouf for outdoors. So take your place on it on your balcony. And soak up the sunshine on your timeless throne.
