# THE GOOD LIFE

We're all familiar with Fatboy's beanbags, Headdemock hammocks, and Edison table lamps. With their bold, iconic, and quirky character, they brighten up tens of thousands of homes and gardens.

Fatboy has grown into a significant player in the interior design industry – with both indoor and outdoor products.

I'M REALLY LIVING THE GOOD LIFE

fatboy®

For over 20 years, Fatboy has been playing with the rules of design and giving everyday classics a new twist. At Fatboy, a lounge sofa becomes a lavishly soft relaxation island, an outdoor lamp turns into a huge, weatherproof, dimmable light source, and Fatboy's hammock can be set up anywhere.

Together with a network of top designers, Fatboy works on new everyday classics. Each product has its own character. Still, you immediately recognize them as Fatboy designs: unique, inventive, and high quality.

# DESIGN WITH A SMILE

Fatboy's design team always looks for the fun in functionality. Every detail has a function: from the red labels which you use to turn on the Edison lamps, to the caps that cover the parasol holes in our Toni garden tables, which lead a double life as candle holders.

The entire Fatboy collection is made of strong, carefully selected materials and they're designed to remain beautiful for years, in every kind of weather. Fatboy wants your products (and joy!) to last for years to come.

Unexpected meetings on the street are always the best. Nothing planned, just going with the flow. With Big Lebow you bring that outdoor spontaneity inside. It doesn't matter where you put this arc floor lamp – by your dining table, couch, above a meeting table, wherever.

Big Lebow will bend over forwards like the quirky streetlamp that it is. It's guaranteed to flood every place with ambiance.

## ABOUT THE DESIGNERS

We developed Big Lebow with the Dutch designer duo Kranen/Gille, who are constantly looking for the next design classic. Like Fatboy, they love developing archetypical, powerful designs that are rooted in the heart of a product.

# THE BONBARON

Ever imagined what it would feel like to sit on a cloud in your living room? Fatboy translates this desire by presenting The BonBaron.

The backrest can be adjusted with the huge buttons at the back.

Carole Baijings constantly lets you see everyday objects in a different light. One-of-a-kind color combinations, textures and transparencies play an important role in all this.

The Colour Blend Rugs and Blankets are part of the Color Blend Collection. "While designing, I like to be surprised by the colors created by blending: sometimes more powerful, other times warmer. Together they form an unexpected yet logical new whole," says Carole.

#### ABOUT THE DESIGNER

Carole Baijings: "You never know in advance what the perfect colour combination is. I like to be surprised by colours that arise when you blend: sometimes they come out strong, sometimes a lot warmer. Together, they form an unexpected and yet logical new whole."
