

CONCRETE SEAT

A classic building block to sit on.

Here's the story

Concrete Seat is a multifunctional stool, inspired by familiar, traditional concrete building blocks. Use it anyway you like: as a seat, as a table for your favorite snacks and drinks, or create a bench by placing several Concrete Seats next to each other.

For indoors and outdoors

Concrete Seat is made in the Netherlands from super strong materials that will remain beautiful through wind and weather. Concrete Seat is lightweight, but if you want it to stay put in a fixed position, you can easily fill it with water or sand. The extra weight will keep its feet firmly on the ground.

Extra relaxed

Want to make Concrete Seat even more comfortable? Do it with Concrete Seat Pillow (Weave). This pillow fits perfectly on your Concrete Seat and is available in a variety of fabrics and colors. Grab a Concrete Seat Pillow and enjoy hours of sitting pleasure.
